

Computerised Laser Therapy

Specifications & Benefits :

Laser beam class 3B

Laser type Semiconductor GaAs

Modes of operation Continuous & Pulse

Wave length 650nm

Maximum Probe power 100/500mW

Power density 0.8w/cm²

beam surface 0.025cm²

max energy within 1 min 2Joules

Inbuilt programs 20 Prog.

Standard Accessories:

Laser probe with cable & keys -1no

Mains Cable - 1no, Goggles - 2nos

Instruction Manual & warranty 1year
